

Integrated Curriculum Goals

- To personalise the teaching and learning programme for St Joseph's School children
- To help students develop the competence they need for study, work, and life-long learning, so they can go on to realise their potential
- To provide programmes that are inclusive of all students irrespective of ethnicity, gender, ability, and social or cultural backgrounds
- To integrate Social Sciences, Science, Technology, and aspects of Health around a concept which provides students with appropriate learning experiences and outcomes
- To ensure each curriculum area is highlighted annually by identifying concepts that are Social Sciences Rich, Science Rich, Technology Rich, and Health Rich
- To set the direction of student learning
